As required by law, the Public Service Commission of South Carolina (PSCSC) has conducted a public hearing to review Duke Energy Progress' plant operations and fuel costs as well as costs incurred to encourage distributed energy resources. Following this review, the PSCSC approved an updated distributed energy resource rate and fuel cost component, which includes certain environmental and capacity costs, of retail rates paid by all Duke Energy Progress' South Carolina retail customers. As a result, fuel rates for the following customer classes will decrease to the following rates, which include gross receipts tax and regulatory fees: Residential at 2.372¢/kWh and Lighting at 1.884¢/kWh. Fuel rates for the General Service (demand) customer class will decrease to 1.884¢/kWh plus increase to \$1.63/kW, which includes gross receipts tax and regulatory fees. Fuel rates for General Service (non-demand) customer class will increase to 2.486¢/kWh, which includes gross receipts tax and regulatory fees. DEP shall decrease its DERP Charge to \$3.53 per month for the Commercial class, and there will be no change to the \$1.00 per month for the Residential class or the \$100.00 per month rate for the Industrial class. These rates also include gross receipts tax and regulatory fees. The new rates will be reflected for service rendered on or after July 1, 2021. Information concerning the impact of these decisions on all rate schedules is available by calling Duke Energy Progress' Customer Service Center at 1-800-452-2777.
